SHE HAD 70+ SYMPTOMS

“Thank you, HomeCleanse, for making my home safe.” -WENDY L

“We just finished a mold remediation with HomeCleanse. I cannot overstate how thorough and professional they are. They fully understand how to remediate mold, and are incredibly invested in getting it right for the client. The team that worked in my home were dedicated, knowledgeable and detail-oriented (shout out to team leader Rasaan). Thank you, HomeCleanse, for making my home safe. Mold remediation requires investments of time and financial resources. HomeCleanse made sure that those investments were worth it.”

“I would never hesitate to use them again if necessary.” -ANGELA R.

“If you are looking for a company with exceptional customer service and top tier quality work then HomeCleanse is the company you want to hire. From the very first phone call to TODAY, our experience with HC has been outstanding. Every interaction we had with every member of HC was friendly, caring, efficient and professional.

Rasaan, the foreman of our project, was the best. Such a professional. He was extremely meticulous and kept us informed throughout the entire process. Communication is key. If we were to choose again, it would be Rasaan.

Having mold in your home and having it affect your health can be an extremely stressful situation. If I could give an MVP award to anyone, it would be Jeff. His level of care and professionalism is unmatched in my opinion.

Adjectives that I would use to describe the team at HomeCleanse and their work are: professional, responsive, attentive, communicative, efficient, meticulous, delivers high quality work, strives to meet client expectations, sincere, caring, reassuring, and more.”

“You made a tough time feel a little more manageable.” -DAVID B.

“If you’ve dealt with mold remediation before and think all companies are the same, think again. We previously used another remediation company, and while they did the job, the difference between that experience and what we had with HomeCleanse is night and day. HomeCleanse has officially become the only remediation company I trust.

Yes, mold remediation can be expensive—and yes, the cost can be intimidating. But as the old saying goes: you get what you pay for. And with HomeCleanse, what you get is peace of mind, thoroughness, professionalism, and people who care.”

"From day one we felt like we could trust them" -ALYSSA B.

"If you are dealing with mold and/or illness in your family, you know how insanely stressful it is! I can not speak highly enough of the whole team with HomeCleanse. From day one we felt like we could trust them and it followed through post remediation. ANY question I had, they were there to help and offer advice. They are very knowledgeable, very kind, and very helpful."

"There is no level of recommendation too high based on our experience." -JASON J.

"After years of uncertainty, we identified the likely cause of some serious health issues in our family as mold in our home. Two separate inspections confirmed that our situation was pretty severe and we elected to tackle the problem head on. Enter, HomeCleanse. From start to finish they were professional and amazing to work with."

Jeff's extensive knowledge was evident throughout the process including his diagnosis of a long standing issue in our crawlspace which has plagued us for years. The whole team was readily available to answer questions or coordinate controlled access to the home when needed.

Have you ever had work done in your home where you question how hard the contractors work or how much they cared? Our experience with HomeCleanse was the exact opposite of that. The work crew did an incredible job. We had a lot of basement and crawl space work and it is simply not possible for it to have been done even 1% better. The transformation was incredible.

Mold remediation is a serious matter, even more so when it is negatively affecting the health of your family. It needs to be done properly and good work cannot be done cheaply. Solving your problem will take a lot of time, effort and money. If you are going down this road and at the point where you need a solution, there is no one better than HomeCleanse to partner with.

"Their crew were some of the hardest working people we have seen." -STEPHANIE M.

HomeCleanse was simply amazing, we are so glad we picked them for our remediation. It was a pretty extensive remediation and nerve wracking to come to the conclusion that it was what we needed to do. However, we are quite confident that we can move back in with a sick child without reservation.

“Save yourself some time and go with HomeCleanse.” -WENDY L

“If you are looking for a knowledgeable company to perform a professional mold remediation, while genuinely caring about their clients and not just their bottom line, save yourself some time and go with HomeCleanse. My wife suffers from auto-immune disease so while renovating our house, mold was the most important concern.

From the onset of the project to finish, I had an outstanding experience with Jeff and his team. They were incredibly thorough, leaving no stone unturned to ensure our home was safe and clean with special attention to ensure my wife wouldn't have any issues with future mold.

As someone who has worked in construction management my entire career, I will tell you finding a company like this is very rare. I highly recommend HomeCleanse to anyone needing mold remediation. Truly a 5-star service!”

“They earned my trust from the start” -JAMES P.

“From the moment Jeff arrived at our house to start the process, he made us feel at ease with his compassion and understanding that this was a challenging experience to live through. Jerry and Team, who were the boots on site every day, were also just as easy and reassuring to engage with every day, answering questions and understanding that they were dealing with people essentially in crisis mode and they handled all of our concerns with honest, accurate updates every step of the way.

If you're facing a remediation project that requires professional attention, do the right thing - don't cut corners as it will only cost you money and sanity later - contact HomeCleanse and let them guide you back to a safe home environment.”

“I could not be more happy and satisfied.” -ALEX C.

“This has been a long painful process for me, but in the end, HomeCleanse and all the staff have been exceptional in helping me through it. They took the time to have multiple calls with me and made sure I understood the process, the costs, and schedule, which was important to me.

Ricardo and his team went above and beyond, even doing a final walk through with me on Saturday when he was ill. I'm lucky to have had the opportunity to work with such a team of people. For anyone who is dealing with a home mold problem, I highly recommend reaching out to the folks at HomeCleanse to get the remediation process started. They are the best!”
